# DAILY
# **DEMANDS**

## Your challenges are many. Your floors shouldn’t be one of them.

As a facility manager, you’re expected to do more with less – tighter budgets, higher expectations, and constant pressure to deliver. You need reliable partners, efficient solutions and results that last. Every surface in your space plays a role in how smoothly your day runs. That’s why smart floor care matters – because fewer problems underfoot mean fewer problems overall.

# THE HIDDEN **COST OF FLOORS**

## When wear becomes expensive

Worn-out floors do more than look bad – they become harder to clean and maintain. Rough textures trap dirt, demanding more frequent cleaning and more resources. Budget constraints can lead to poor or no maintenance and force costly early replacements.

# **NEW WAYS** OF PROTECTION

## New thinking for old floors

Modern floor care means smarter solutions for worn surfaces. Bona offers faster, cleaner alternatives to floor replacement – with less disruption, lower cost and a much lower environmental impact. Whether it's for wood or resilient surfaces, the Bona method helps extend floor life and preserve their appearance.

- ✓ **Recoating is done in hours**
- ✓ **Keep the existing floor longer**
- ✓ **Save costs, energy and $CO_2$**
- ✓ **Protect your floor investment**

# WHY IT IS A **SMART CHOICE**

## Extending the life of the floor

Why replace when you can renew? Bona's floor treatment methods extend the life of your surfaces while improving their appearance and performance. This is a forward-thinking solution for facility managers who value efficiency and long-term savings. The treatments are customized to fit different floor types and levels of wear, ensuring optimal results. Bona's solutions are trusted by professionals worldwide in commercial areas like sports, healthcare and educational facilities.

- ✓ **Both wood and resilient floors**
- ✓ **Low total cost of ownership (TCO)**
- ✓ **Trusted by professionals globally**

PROTECT YOUR FLOORS **– AND YOUR BUDGET**

# IMPROVE **OVERALL MAINTENANCE**

Bona's treatments improve surface quality, making daily cleaning faster and easier. They reduce wear and preserve performance over time – across both wood and resilient floor types. With less time spent on cleaning and fewer interventions needed, the overall maintenance burden is lowered. This means not only smoother operations but also healthier finances for your facility.

- ✓ **Easier cleaning routines**
- ✓ **Less effort, better durability**
- ✓ **Long-term savings on maintenance**

# **FIVE REASONS**
# IT PAYS OFF

Bona delivers more than maintenance. Our program supports your operations, budget, and sustainability goals – with full-service delivery and proven results. It's designed for the real-world challenges of commercial and public environments, ensuring long-term impact and value.

## Why smart floor care is a better long-term decision **– for your operations, your image,** and your bottom line.

**PROVEN ECONOMY**
*– Lower costs through longer floor life and reduced cleaning needs.*

**SMOOTH OPERATIONS**
*– Fast treatments with minimal downtime or disruption.*

**RELIABLE PERFORMANCE**
*– Consistent, high-quality results with certified delivery.*

**SUSTAINABLE IMPACT**
*– Lower emissions, less waste, and energy-saving processes.*

**PROFESSIONAL AESTHETICS**
*– Floors that reflect your brand and impress every visitor.*

**PROVEN** ECONOMY

# BRILLIANT FLOOR CARE, **BRILLIANT FINANCES**

Extend the life of your floors and cut cleaning costs with smart, scheduled treatments. By avoiding major replacements and reducing cleaning effort, Bona helps facilities stay within budget. The predictability of the program also supports better financial planning.

- **Reduce daily cleaning effort and frequency**
- **Predictable costs simplify budgeting**

By extending floor life and reducing wear, **Bona helps you save up to 40%** versus the cost of replacing the floor.

PROLONG
**FLOOR LIFE**

**SMOOTH** OPERATIONS

Renovating a wood or resilient floor can **reduce downtime and lost revenue up to 50%** compared to installing a new one.

**LESS**
DOWNTIME

# MORE UPTIME,
# **LESS DISRUPTION**

Bona keeps your facility running with fast, quiet, low-odour treatments. Maintenance can be completed zone by zone, avoiding the need for shutdowns. With surfaces that stay cleaner longer, your teams spend less time on daily upkeep.

- **Cleaner floors longer**
- **Faster daily cleaning**

Bona's system approach ensures **that every product used contributes to optimizing your floors'** functionality and appearance.

**ENSURED QUALITY BY** CERTIFIED CONTRACTORS

**RELIABLE** PERFORMANCE

# **PROVEN PERFORMANCE,** INCREASED DURABILITY

Well-maintained floors reflect well on your facility. With customizable finishes, you can align the floor's appearance with your brand standards and create a welcoming environment. A cleaner, fresher look also boosts user perception.

- **Warranties for adhesion and durability**
- **EN-standard slip resistence**

## ENVIRONMENTAL SAVINGS

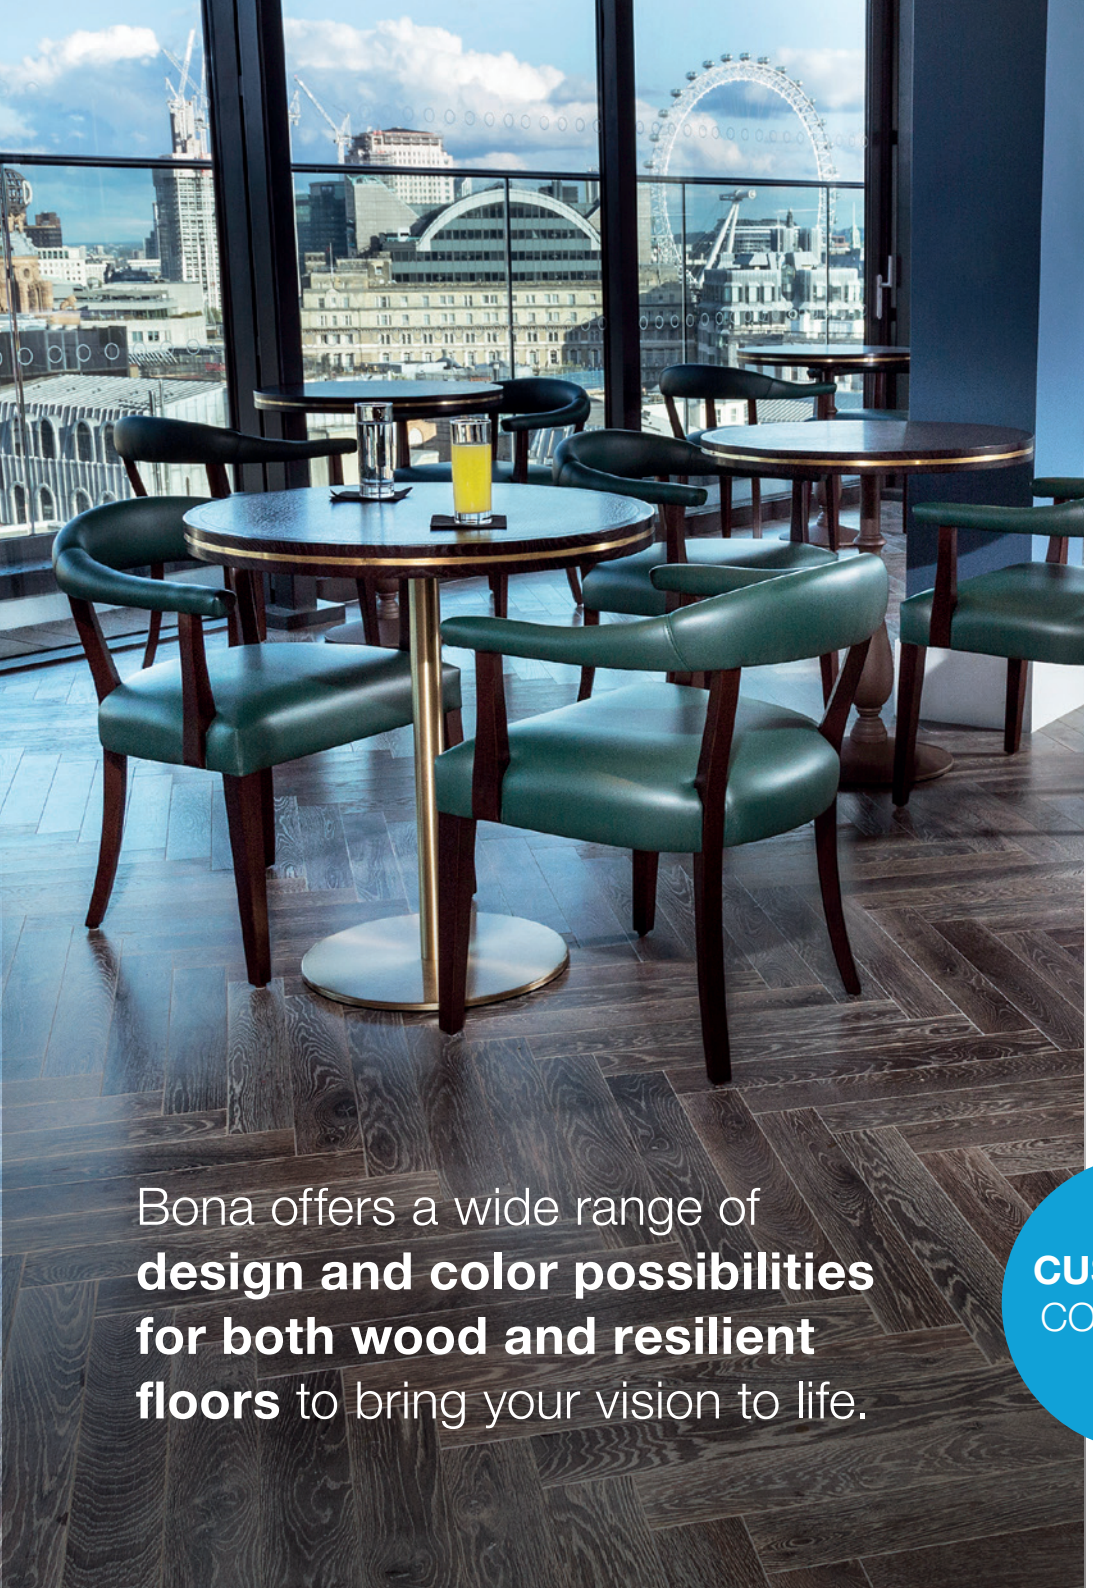
Floor renewal can help contribute to your facility's environmental goals by **reducing $CO_2$ and energy savings by up to 90%.**

# BETTER MAINTENANCE **MEANS LONG LASTING FLOORS**

Our system helps you meet green goals and reduce environmental impact. With low-emission products and energy-saving processes, Bona supports both environmental certifications and internal sustainability objectives. Ensuring a high indoor air quality is also a top priority for us at Bona and we develop our products and solutions we always have the health and safety of the end-users in mind.

- **Very low VOC, EMICODE EC1+ certified**
- **Dust-free sanding equipment capturing 99,9% of sanding dust**

SUPPORTS **LEED & BREEAM**



Bona offers a wide range of **design and color possibilities for both wood and resilient floors** to bring your vision to life.

**CUSTOMIZE** COLOR AND FINISH

# PROFESSIONAL, PRESENTABLE, EVERY DAY

Well-maintained floors reflect well on your facility. With customizable finishes, you can align the floor's appearance with your brand standards and create a welcoming environment. A cleaner, fresher look also boosts user perception.

- **Enhance the visual appeal**
- **Redesign possibilities**

# ONE PROGRAM, **MANY POWERFUL OPTIONS**

From light touch-ups to full renovation, Bona Floor Treatment Program delivers professional results at every stage. The program is streamlined for clarity and built for repeatability across large scale facilities. This approach simplifies planning and ensures consistent care for all floor types.

## Bona **REVIVE**

Deep cleaning and scuff removal

## Bona **RECOAT**

Light sanding and a new protective surface

## Bona **REFINISH**

Full sanding, colour change and new surface

**All treatments could be performed by professionals trained and supported by Bona,** either through our global network of certified Bona Craftsmen or by trained Building Service Contractors.

# **START WITH** A FLOOR INSPECTION

Depending on the condition of your floors, we recommend the relevant treatment. Bona's trained or certified experts inspect your floors and create a tailored plan – helping you make informed, cost-effective decisions. When the floor needs a deeper cleaning it's time for Bona Revive, when the surface is dull it's time for Bona Recoat, and when the floor is damaged it's time for Bona Refinish.

- ✓ **Avoid replacements**
- ✓ **Get documentation and roadmap**
- ✓ **Visual proof and recommendations**

READY
**WITHIN HOURS**

WHEN THE FLOOR NEEDS A DEEPER CLEANING THAN DAILY CARE CAN PROVIDE

# Bona **REVIVE**

## Restore shine in a single day

Revive is the quick, powerful clean that brings tired floors back to life. No dust, no downtime – just visibly better results. It's ideal for regular maintenance that keeps floors looking great without interrupting operations. The method is eco-effective and supports a healthier indoor environment.

- ✓ **Removes dirt, dullness and scuff marks**
- ✓ **Ideal for routine care in busy environments**
- ✓ **Eco-effective system with minimal chemicals**

WHEN THE FLOOR SURFACE IS DULL, STAINED OF SLIGHTLY SCRATCHED

# Bona RECOAT

## When floors need a new protective surface

Recoat applies a fresh protective layer, enhancing wear resistance and appearance. It strengthens the floor's surface, making it an efficient solution for facilities with minimal tolerance for downtime. Customizable finishes ensure the result fits both functional and aesthetic needs.

- **Done in hours, without replacement**
- **Customize slip resistance and sheen**
- **Keeps floors looking and performing better**

READY
**IN 2-4 DAYS**

WHEN THE FLOOR IS
DAMAGED AND LOOKS OLD
AND LACKLUSTER

# Bona REFINISH

## From worn out to like new

Refinish is the full reset: sanding or stripping to bare surface, then rebuilding with a finish that suits your space. It removes deep scratches, stains and wear, bringing back a clean and professional look. Ideal for high-traffic areas or neglected surfaces, this method gives you long-lasting results without full replacement.

- **Deep renovation without full replacement**
- **Remove heavy wear, stains and old coatings**
- **Choose from modern, durable finishes**

1st Floor:
Library
Offices 101-110
Meeting Rooms 1.1-1.3
Playground
Restaurant
Meeting Rooms 0.1-0.4

# PRESERVE THE BEAUTY, **EXTEND THE LIFE**

Wood floors can be both beautiful and durable with the right care. Bona makes it easier to maintain them long-term. The treatments suit various finishes and usage levels, offering flexibility without compromising on aesthetics or performance.

- ✓ **Recoat without sanding or disruption**
- ✓ **Choose between lacquered or oiled systems**
- ✓ **Certified treatment products with low odour**

# **PROLONG LIFETIME** WITH THE RIGHT TREATMENT

A well-maintained wood floor can last for 15 years or more before requiring renovation. With proper care, a floor can be renovated up to four times, extending its lifespan to 60 years or more. Considering the significant environmental and cost savings associated with even a single renovation, the benefits over replacements become clear.

Bona has the all the well-proven products and equipment needed to **provide the perfect treatment for all your wood floors**.

# ENDLESS DESIGN **POSSIBILITIES**

Customize your wood floors to perfectly complement the aesthetics of your facilities. Bona offers a wide range of design possibilities to bring your vision to life. Whether you prefer a minimalistic look with whitewashed planks or a contemporary twist on classic parquet, we have the solutions to elevate your floors and enhance your space.

- ✓ **Keep up with trends**
- ✓ **Offer a premium impression**
- ✓ **Personalize your spaces**

# **FLOORS THAT LAST LONGER,** LOOK BETTER AND COST LESS OVER TIME

Resilient floors deserve more than short-term fixes. With Bona, you get a modern, sustainable way to maintain and protect them – without stripping, polishing or unnecessary replacements. Our system enhances performance, reduces maintenance effort, and preserves the look of your floors for years to come. It's a cleaner, simpler way to take care of your investment.

- ✓ **Cleaner floors and non-sticky finishes**
- ✓ **Hygienic protection and simplified maintenance**
- ✓ **Less disruption with minimal downtime**
- ✓ **Lasting performance and lower TCO**

# IMPROVED DURABILITY, **SIMPLIFIED MAINTENANCE**

RETHINK
**RENEW**
**UPGRADE**

Instead of performing dirty and disrupting stripping and polishing maintenance once a year, we offer great alternatives by gently abrading the top surface applying a new layer of clear topcoat. The process is fast, the floors can be used in a few hours, and the surface will be 7 times stronger.

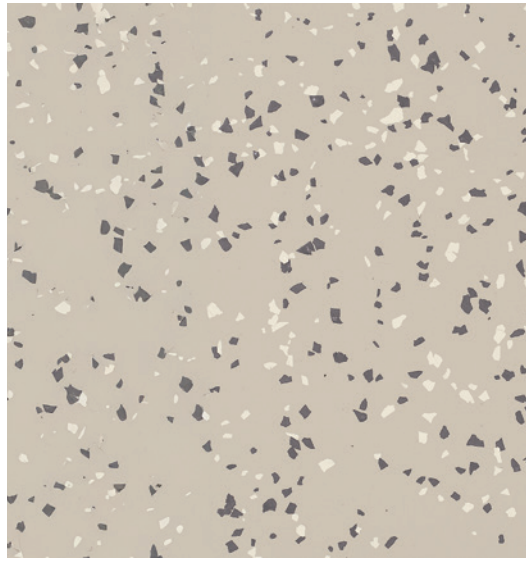
- ✓ **No more stripping and polishing**
- ✓ **Hygienic surface – easily cleaned**
- ✓ **Preserved premium surface look**

Bona has the all the well-proven products and equipment needed to **provide the perfect treatment for all your resilient floors.**

# **ENHANCE WELL-BEING** WITH COLORS OF NATURE

Our color collection for resilient floors beautifully integrates tones and colors inspired by nature. Each color and shade has been meticulously selected and thoughtfully designed by worldleading Prof. Buether to cater to the diverse needs of commercial environments. These carefully curated colors not only enhance aesthetic appeal but also create welcoming functional spaces that promote well-being and productivity.

- ✓ **Expertly developed color collection**
- ✓ **Used in evidence based design**
- ✓ **Modern color psychology**



**HYGIENE**
**DURABILITY**
**APPEARANCE**

# TAILORED SOLUTIONS **FOR EVERY SETTING**

Bona's flexible program suits a wide range of environments. From professional office spaces to high-demand healthcare facilities, our system adapts to each setting's needs. Every application brings benefits in hygiene, durability, and appearance.

**OFFICES** Quiet, professional, brand-aligned spaces

**HEALTHCARE** Safe, hygienic, and ESD compliant floors

**HOSPITALITY** High-impact aesthetics, minimal downtime

**EDUCATION** Durable and clean between semesters

**OFFICES**

**MINIMAL DOWNTIME** FOR EMPLOYEES

# WORKPLACES THAT **IMPRESS AND PERFORM**

A professional workspace starts from the ground up. Clean, well-maintained floors reflect your brand's standards and create a welcoming, productive environment. Bona's system improves floor aesthetics while enhancing the performance of your surfaces. With fast application and minimal disruption, you can maintain a polished look without disturbing your team.

- **Quiet, attractive, professional environments**
- **Treated floors reflect your brand standards**

HEALTHCARE

**SUPPORT SAFETY** AND INFECTION CONTROL

# **HYGIENIC, CLEAN** AND ALWAYS OPERATIONAL

In healthcare, hygiene is non-negotiable. Bona treatments help you maintain disinfected, slip-resistant and ESD floors that meet high safety standards. Our fast-drying, low-odour solutions allow you to treat one space at a time, ensuring continuous operation and minimal disruption to patient care. It's a smart way to protect both surfaces and people.

- **Hygiene, slip resistance, disinfected surfaces**
- **Treat space-by-space with low disruption**

**HOSPITALITY**

**HIGH AESTHETIC** STANDARDS

# FLOORS THAT **WELCOME GUESTS**

First impressions count – and floors are often the first thing guests notice. Bona ensures your surfaces stay beautiful, easy to clean, and aligned with your brand's visual identity. Treatments can be scheduled off-season or overnight for minimal guest impact, making it easy to maintain high standards all year round.

- **Enhance impression for staff and guests**
- **Schedule off-season of overnight**

EDUCATION

**STRONG, CLEAN,** HIGH-TRAFFIC READY

# **DURABILITY WHERE** IT COUNTS

Schools and universities see intense foot traffic. Bona helps maintain strong, clean floors that can stand up to daily use and still look great. Our program fits around the academic calendar, allowing deep treatments with lower frequency during breaks without affecting the learning environment. That means long-term performance without long-term disruption.

- **Renovate during school breaks**
- **Don’t interrupt the busy calendar**

# **WHY** BONA?

## One trusted partner
