

# Fall for These Cleaning Tips

This Fall, make your home cleaner and more comfortable with these simple tips from Bona

## Make a Clean Sweep

Use a microfiber mop and pad to avoid scratches and surface damage while dusting your floors.

Avoid lifting your microfiber mop off the floor to keep the dirt trapped on the pad and prevent damage to your floors.

## Go Deep. Get Clean.

Use Bona PowerPlus® Hardwood Floor Deep Cleaner with an oxygenated formula and bubbling action to get an easy deep clean and lift dirt and grime.

Without all the extra effort.

## Old Floors, New Look

Deep clean, recoat or refinish with a Bona Certified Craftsman.

CERTIFIED Bona CRAFTSMAN

Professionally trained and certified by Bona

1 **Revive** — Deep clean to remove scuffs

2 **Restore** — Rejuvenate floors with a new coat of finish

3 **Refinish** — Update the look of your floor with a complete renovation

## Things to Think About

If your vacuum has a beater bar, make sure it doesn't hit the floor.

The wheels on a vacuum might damage the floors.

Avoid putting excess liquid on your floor. A mist of cleaner will give an excellent clean.

Residue-free, waterborne formulas specifically formulated for wood work best.

## Always remember that wood and vinegar/water don't mix

Vinegar is an acid that can dull your floor's finish over time, so stick with a formula for hardwood
