Bona Power Stripper

Powerful stripper for removing resilient and textile floor coverings on areas and stairs

For removing resilient and textile floor coverings. Suitable for use on open areas and stairs. For stair applications, the guide handle can be removed, and a hand grip can be fitted.

- Guide handle can be individually adjusted to the operator height
- Smooth operation with reduced vibration
- Stable straight-line guidance during removal
- Optimized working angle for improved ergonomics
- Compatible with the existing blade range
- With pressure T-handle

KEY BENEFITS

- Optimized rotary grips with quick-release clamping and very secure hold
- Transport wheels mounted on the housing as standard
- Improved deflector for efficient removal and discharge of floor coverings

Technical Data:

Voltage: 230Volt
Motor power:2400 Watt
Working width: 210mm
Weight: 14.1 kg

DELIVERY SCOPE
