

Amber

Color tone with primers

This warm tone can be described as an intense, inviting appeal. It often radiates a sense of cheerfulness, optimism and comfort. A warm tone is typically associated with the colors red, orange and yellow. They are often used to bring a sense of coziness into a room, as well as add a touch of boldness and energy to any space. Whether you're looking for a bit of cheerfulness, optimism or comfort in your home, using warm tones is the perfect way to achieve it.

**The treatment is done on white oak floors and can vary in tones and look depending on what type of wood and condition of the floor.*
