

Gloss

Protect and shine with lacquers

The glossy floor shines and reflects light and adds elegance to any space. Its smoothness and flawless sheen create a sense of luxury. Not only visually appealing, but it's also practical too, making cleaning effortless. Glossy floor finishes are designed to be highly durable, resistant to scratches, scuffs, and general wear and tear.

**The treatment is done on white oak floors and can vary in look depending on what type of wood and condition of the floor.*
