

Matt

Protect and shine with lacquers

The matt floor exudes subtle charm with a non-reflective surface, creating a serene and calming atmosphere. It's durable, easy to maintain, and hides scratches and dirt well. The velvety texture adds warmth and versatility to any room's design. A popular choice for its practicality and timeless appeal.

**The treatment is done on white oak floors and can vary in look depending on what type of wood and condition of the floor.*
