

Bona Chroma®

WATERBORNE WOOD FLOOR COLORATION

Bona Chroma® Waterborne Wood Floor Coloration is an eco-friendly wood floor coloring method that results in a vibrant, intense wood color – with an application and drying procedure that is safer, quicker and healthier than other processes. Bona Chroma is water-based, which minimizes odors, eliminates the need for water popping and makes it non-flammable. This customizable color blending system offers nine options for endless color possibilities!

FEATURES AND BENEFITS

- Easy to use – forgiving water-based application
- No water popping required
- Fast dry time – complete jobs faster
- Non-flammable/non-combustible – no stain rag fires
- Low to no odor
- Non-yellowing formula
- Available in nine colors
- Colors can be mixed for custom blends

**Low
VOC**

With low VOCs and a waterborne formula, Bona Chroma offers a complete environmentally friendly solution to homeowners. Paired with Bona Waterborne Finishes and Sealers, and Bona Silane-Based Adhesives, distinguish your business from the competition with a sustainable wood renewal solution that is safer for people, pets and the planet.
