LONG-LASTING PROTECTION

Commercial spaces demand flooring solutions that can stand up to the rigors of substantial traffic and heavy wear. Bona Pure HD meets commercial flooring needs with superior wear and chemical resistance. Its advanced formula effectively seals and defends against extreme traffic conditions, ensuring durable, long-lasting protection.

BACK ON THE FLOOR AFTER 24H

The curing process takes approximately 3 days. The floor may be walked on after 24 hours but remains susceptible to scuffng or marring until completely cured. Furniture can be moved back in carefully after 3 days. Do not replace area rugs until the foor has fully cured.

CLIMATE SAVINGS

In a study conducted by the IVL Swedish Environmental Research Institute, they found that renewing with the Bona Resilient Floor Solution rather than replacing a resilient floor results in 98% savings in energy and 92% reduced carbon footprint.
