ABRASION

Using the Bona® Abrasion System gives your damaged and worn-down floors a new lease on life with our recoating and transformation processes. Thanks to our streamlined approach, the perfect surface can be achieved in a matter of hours with little downtime and is cost-effective, without the hassle of installing a new floor.

Bona's Abrasion Aystem involves abrading with Bona® Diamond Abrasives, Bona FlexiSand DCS® Buffer and Bona® Multidisc, followed by our professional grade primers, base colors and finishes for a durable and beautiful floor.

- Bona FlexiSand DCS® Buffer
- Bona DCS® Back Vac
- Bona® Multidisc
- Bona® Diamond Abrasives

Bona FlexiSand DCS® Buffer

Bona FlexiSand Drive Plate

The Bona FlexiSand DCS® Buffer's technologically advanced design is engineered for performance, convenience, durability, unequalled power, superb balance and superior dust pick-up. The new low-deck design combined with the adjustable LED light makes working in hard-to-reach places easier than ever before. Push button activated hydraulic handle is easy to use and is adjustable to meet the needs of any user.

Key Benefits:

- Innovative vacuum chamber for superior dust pick-up
- Low-deck height for access to toe kicks and other hard-to-reach places
- Floating dust skirt adjusts automatically
- Large wheels for easy maneuverability when transporting
- Hydraulically adjustable handle height at the push of a button

Bona DCS® Back Vac

Disposable HEPA Filters

Powerful, HEPA ready vacuum with padded shoulder and waist straps for use with DCS® Buffers or vacuum attachment tools. Tools included.

Key Benefits:

- High-powered, heavy duty
- High quality, 4-level filtration system
- Comfortable, streamlined, lightweight vacuum

In order to meet GREENGUARD specification
Bona Back Vac must be equipped with

Bona® Multidisc

Innovative drive plate in 16" size (six 5" discs) or 20" size (five 6" discs) creates the perfect surface for a Bona Finish System. The discs spin independently of each other, all but eliminating swirls and scratch marks, leaving the floor smooth and flat. Compatible with most buffers.

Key Benefits:

- Incredibly smooth sanding results
- Ideal for fine sanding of pattern floors

Bona® Diamond Disc

The ultimate intercoat abrasion solution. Bona® Diamond Abrasives give you the assurance of a consistent scratch pattern across the entire floor leaving the best surface possible for optimal adhesion.

Key Benefits:

- Lasts up to 4,000-6,000 sq. ft. to accommodate all applications
- No visible swirl marks
- Consistent scratch pattern

RESILIENT FLOORS

If your existing floors are worn-down, but you're not ready to invest in replacing them, the new Bona Resilient System can give you the quick, cost-effective, and simple solution you desire to upgrade your hard surface floors. Our revolutionary solution starts with stripping old polish off your floors and upgrading with one of our six Bona Pure Colors. Bona Premium Color Chips allow for a beautiful, textured look and our highly durable clear coat, Bona Pure HD, eliminates the need for ever polishing or stripping the floor again! This process can be done in less than half the time it would take to replace the floor. This means facilities will be back in service faster, with less expense.

The Bona Resilient System is the easy, safe, and effective solution for maintaining or updating your resilient floors, such as VCT, LVT, VAT, and sheet vinyl.

Bona Floor Transformations

HAVASU REGIONAL MEDICAL CENTER

LAKE HAVASU CITY, AZ

Arizona-based Havasu Regional Medical Center needed an upgrade for its old, worn, resilient floors. Important to the process, the facility sought a cost-effective solution to renew and improve the operating room floors with minimal downtime. This led the medical center to the Bona Resilient System which upgraded the floors without the mess, expense, and time-intensive process of tearing out the floors. Instead, the Bona Resilient System offered a cost savings of up to 75%, a 4 hour renewal process, with only 18 total downtime hours. Compared to the standard new floor installation process which runs a minimum of three days and costs several hundred thousand dollars more, the benefit of utilizing the Bona system was clear.

MULTI-SURFACE

Bona Multi-Surface products were developed with the specific intention of being compatible with and complementing the Bona Resilient System and a variety of resilient floors including rubber, VCT, VAT, LVT, Lino and Sheet Vinyl. These products increase the durability and seamless look across your floors and reduce the need for additional coats of base color.

Bona Multi-Surface floor products are easy to apply, low in odor and establish excellent chemical resistance and high durability of the floor.

- Bona Resilient Floor Repair
- Bona Premium Color Chips
- Bona AntiSlip Additive
