Bona Traffic HD® Anti-Slip

A two-component waterborne finish offering slip resistance properties, exceptional durability and protection for hardwood floors.

Bona Traffic HD® Anti-Slip is a newly formulated finish that features all the same benefits of Bona Traffic HD® but with the additional benefit of being formulated to meet the highest standards for slip resistance. With a higher coefficient of friction, it is an ideal choice for commercial applications where anti-slip properties are required or in residential settings on stairs, in kitchens or homes occupied with older adults.

- Meets ADA recommendation for accessible routes and ramps according to ASTM 2047
- Superb wear, chemical, and scuff mark resistance
- No sealer needed over a stained floor
- Exceptional build
- Fast drying – approximately 2-3 hours
- Full cure in 3 days
