

DESIGN CUSTOMIZATION

RETHINK RESILIENT FLOOR REPLACEMENT BONA RESILIENT SOLUTION

RETHINK
RENEW
UPGRADE

Introducing the Bona Resilient Solution. An innovative, sustainable and highly effective system to renew and extend the life of linoleum, PVC, vinyl, PU, rubber or LVT floors.

In addition to the functional benefits of a floor being a sturdy, durable foundation that withstands heavy traffic and is resistant to slips, design is an important consideration to complement the entire space. While one's first interaction with a space is visual, the first physical contact is the floor. It serves as a foundation for your design and keeping your facility looking great. A Bona Resilient Solution floor renewal is a new yet quick and simple alternative to achieve your goal of updating a space or completely transforming it without the added investment of installing a brand-new floor.

RENEW THROUGH COLOUR

Achieve a modern, fresh look to worn floors with the Bona Resilient Solution. Offered in 9 standard colours plus the addition of a custom colour to match any RAL colour standard provides limitless opportunities.

SIGNS, SYMBOLS, GRAPHICS

Whether creating game lines for a sport floor or adding directional arrows to improve traffic flow in a hospital, achieving your dream floor is quick and easy.

CREATIVE CHIPS

Add even more depth and customization to your resilient floor renewal with our multiple colour chip offerings or create your own custom design with our help. Bona Creative Chips can be applied from a light sprinkle to full coverage.

Solrød Library, Denmark

CASE STUDY - Library floor renewal

At Solrød Library near Copenhagen, Denmark, the facility needed a much-desired renovation to update the library making it a more comfortable and inspiring place to learn. Instead of ripping out the vinyl rolled floors, they choose to renew the floors with the Bona Resilient Solution. Not only were they able to add some desire flare to the library floors, but they were able to add a durable coating thus extending the life of the floors. This sustainable, design driven solution helped them realize their renovation goals while saving time and money.

FLOORS THAT CAN BE RENEWED WITH BONA RESILIENT SOLUTION

RENEWING WITH THE BONA RESILIENT SOLUTION OFFERS THE FOLLOWING **ADVANTAGES OVER REPLACING:**

- Significant downtime savings
- Substantial cost savings
- Considerable carbon footprint reduction
- Limitless design customization
- Improved durability attributes
- Enhanced hygiene properties

RETHINK RESILIENT FLOOR REPLACEMENT

Renew and extend the life of the floor with a new durable surface using only the clear coat solution or transform the floor completely, adding endless design customization with the colour coat solution.
